CANADIAN REGISTRY OF THE TENNESSEE WALKING HORSE

The Canadian Registry of the Tennessee Walking Horse (the Registry) was incorporated under the Livestock Pedigree Act (Animal Pedigree Act) of the Department of Agriculture, Ottawa Canada in 1982. People using the services of the Registry must not only abide by the rules and regulations of the Registry, but also the rules and regulations of the Animal Pedigree Act.

Although a member association with an elected Board of Directors, the Registry subcontracts all work to Canadian Livestock Records Corporation. The Board sets the direction for the Registry, but is not involved in the day to day work regarding the registration or transfer of horses. In addition, full membership is available only to those who own a TWH registered in the Registry.

Objects of CRTWH according to the CRTWH Constitution

- to establish standards of breeding and to develop and maintain a system of identification and registration for purebred Tennessee Walking Horses through the Canadian Livestock Records Corporation, hereinafter referred to as the "Corporation".
- to encourage ongoing improvement in the quality of the Tennessee Walking Horse.
- to co-operate and co-ordinate with other Breed Associations and agriculture groups to develop the interest of the Light Horse Industry of Canada for domestic and international markets.
- to promote the Tennessee Walking Horse as a versatile breed by promoting the Tennessee Walking Horse for general family enjoyment; to foster friendship, good-will and understanding between Tennessee Walking Horse owners; and to establish a friendly accord between the Association members, the public, and other Tennessee Walking Horse Association.

MISSION, VALUES AND VISION

Our Mission: To register and record purebred Tennessee Walking Horses, both in Canada and internationally, with accuracy and integrity. We are dedicated to preserving the historical attributes of the breed, while encouraging ongoing improvement in the quality of the Tennessee Walking Horse.

Our Values To foster the respectful and humane treatment of Tennessee Walking Horses through increased public awareness and education, and to encourage the enhancement of each animal's natural gait through good horsemanship.

Our Vision: We envision riders of all ages, in all applicable disciplines, having the opportunity to appreciate the smooth ride, strong build and mild disposition of the Canadian registered Tennessee Walking Horse.

LIBERTY MODULE

Philosophy

The CRTWH recognizes that there is more to horsemanship or horse ownership than riding a horse. Changes in the world of horses and changes in the demographics of those owning horses dictates that the ways of interacting with horses must also change over time.

The quote attributed to Winston Churchill, “there is something about the outside of a horse that is good for the inside of a man” is still true today, and can be applied to different ways of being with horses. There has been a change in the way people interact with horses, a change in the people who own horses, and an expansion of the reasons that people own horses.

The CRTWH Training Levels include disciplines that recognize the relationship between horse and human that do not necessarily involve riding or driving – The Training Levels recognize the place the horse can play in enhancing personal development through the alternative activity of liberty.

The purpose of the Training Levels is to evaluate your progress with your horse in the discipline of your choosing. Liberty is no different. This module evaluates your progress with your horse. It is the human’s responsibility to be informed about liberty training. As with other disciplines, there are many practitioners, methods and approaches to both groundwork and liberty. The human is responsible for ensuring adequate knowledge and ability to work with their horse at liberty. Safety of the horse and human is of the utmost importance.

The basic premise of Liberty is that in the relationship between horse and human, the horse is always treated with dignity and respect. The work on or off line is not intended to show dominance by man or the superiority of man to horse, but a respectful partnership between the horse and the human working together to achieve a goal. The safety of both horse and human is always a prime consideration.

General Rules

Safety of horse and human is paramount.

Personal space is of utmost importance for safety. At no time should the horse invade your space. Keep a ‘bubble’ of personal space around you at all times. This personal space bubble is part of your liberty training protocol.

Pre-requisites

- the right attitude.
- study of liberty methods and practitioners
- a fitness level that makes you a good liberty partner for your horse.

Tack and Attire

- Halter -
- 12 foot rope or lead line
- Guiding tool – four foot stick with rope attached or other training aid
- Helmet - recommended
- Flack Jacket – recommended
- Gloves – optional
- **BOOTS OR SAFE FOOTWEAR**

Working Area

Small enclosed space - paddock, pasture or 20 meter round pen

Offline - a big enough fenced space that offers the horse the choice of staying or leaving

Communication: Verbal and/or Body

- Verbal allowed
- The goal is more body language and less verbal
- Be present and be in the moment at all times.
- Treats are optional depending on your training philosophy

The following elements will be used in evaluation. Overall body language is paramount in all elements.

- a. Relationship between horse and human – trusting, respectful, connected, confident, willing partnership, relaxation
- b. Rapport – communication, willingness, working together, partnership, relaxation
- c. Respect – mutual between horse and human, space boundaries established and maintained, relaxation
- d. Overall expression – focused, connected, confident, relaxed and engaged as opposed to bored, unresponsive, aggressive.
- e. Exuberance – enjoyment, joie de vivre on part of horse and human. (Minimal exuberance at level 1, moderate at level 2 and high at level 3)
- f. Technical - the correctness of the technique but overall body language was exaggerated or weak (technical failure), relaxation
- g. Technique - appropriate for the task
- h. Draw – connection of horse to human, relaxation
- i. Drive – response to pressure and body language, relaxation.
- j. Impulsion – balance and forward movement, relaxation
- k. Fluidity –moving as a team without hesitation

APPENDIX 1

GUIDELINES FOR GATHERINGS

- 1 Any CRTWH member or members may organize a Gathering
- 2 Any CRTWH member may act as the liaison person / facilitator.
- 3 A 'Gathering' provides breeds and owners an opportunity to get together, visit, learn, compare notes on horses and prepare submissions for 'The Canadian' Triple Challenge.

Suggestions/Requirements for Hosting a 'Gathering'

1) Notify CRTWH so we are aware of the event.

2) One person in an area acts as the Facilitator.

The Facilitator may request brochures which will be sent to the Facilitator for distribution. The Facilitator is also responsible for delegating work, etc. Brochures ideally should be sent out to participants well before the gathering takes place so participants understand what the evaluators are looking for. Information on the Program requirements is also up on the website.

3) The Facilitator contacts local CRTWH members, and a date and time is agreed upon and set.

4) The Facilitator locates a videographer, either a professional or a volunteer.

There are certain events in which a videographer is not required. Some other events may be live, but viewed and documented by a qualified representative of CRTWH (public events).

5) The Facilitator ensures advertising for the 'Gathering'.

This may take the form of posters in tack stores, word of mouth, on the CRTWH website, in *WHN*, local magazines and papers, social networking, etc. (The CRTWH board would appreciate being notified of advertisements or publicity.)

6) The Facilitator must encourage safety for horse and rider at all times.

The Facilitator hosting a Gathering must have a current provincial equine association membership. The Facilitator must require all participants to provide proof of membership and liability insurance through their Provincial Equine Association and to sign waivers for their facility. In the interests of safety the Facilitator is strongly encouraged to require that all participants, but especially those under the age of 18, to wear helmets.

7) The Facilitator may arrange a social for after the videoing is done.

This gives participants a chance to get together, visit and compare notes on their horses.

8) Copies of the videos should be given/sent to the rider/horse-person/participant attempting the challenge or level. The owner of the horse is responsible to submit the video, entry form and fees to CRTWH. The Facilitator is not responsible for entries but is responsible for sending or giving the video to the participant.

*If YOU are interested in hosting a gathering in your area,
please contact secretary@CRTWH.ca with the following information:*

I _____(insert name of the person or ranch)

would like to host a Gathering on _____ (date) at

_____. (location)

The purpose of the gathering is to support participants, record challenges

and provide information to those interested in the

Triple Challenge Program of the

Canadian Registry of the Tennessee Walking Horse.

*Booklets with standards & video instructions are available on the CRTWH website under

APPENDIX 2

GUIDELINES FOR ELECTRONIC SUBMISSION

Note:

Submission must be in electronic format – DVD, Memory stick, you tube, private channel

*Note – in some circumstances and by prior arrangement, Evaluations may be live. Horses will be evaluated to the best of the judge's ability.

The quality of the video may affect the ability to evaluate the Entry.

All submissions will be evaluated by recognized and qualified persons designated as the Evaluator of the year.

GENERAL INSTRUCTIONS

- Depending upon the activity being filmed, the recording device may have to be moved. A tripod is advisable.
- When horse is stationary, run the recording device for at least 45 seconds unless indicated otherwise.
- When zooming in or out is important to the activity, zoom **SLOWLY!**
- Move the camera or the horse as the situation dictates
- Recording may be inside an arena or outside in natural elements.

MOVEMENT UNDER SADDLE OR IN HARNESS

- 1 To evaluate the horse under saddle or in harness, either indoor or outdoor space, adequate to produce a recording of sufficient quality is necessary.
- 2 It may be necessary to stop the recording device and move it to another location during the session.
- 3 Basic Skills In Hand Awards, Horsemanship at all Levels Awards, Trail Riding at all Levels Awards, Driving at all Levels Awards and any Optional Activity Award are intended to demonstrate achievement or training of the horse and the horse only.
- 4 Riding or driving style and ability is not being judged. Riding style and ability will affect the performance of the horse: however, it is impossible for a judge to eliminate this influence. The point is ***it is the performance of the horse that is being judged.***
- 5 Tack, attire and equipment will not be judged. Tack and equipment should be legal, humane (no bits with long shanks, etc.), serviceable and clean.
- 6 Artificial enhancement of movement is not desirable and will be penalized.

HELPFUL HINTS

- 1 Give each Entry the opportunity to be evaluated at its best.
 - Thoroughly clean and groom the horse. (The recording may be a useful sales tool)
 - Familiarize the horse with the recording device and the person operating the device.
- 2 An assistant may be required to operate the recording device or exhibit the horse.
- 3 Check the recording device for memory and battery.
- 4 Hold the recording device steady. A tripod is beneficial. It allows the recording device to be responsive to the movement of the horse.

- 5 Natural light is preferable. Shoot with the sun at your back.
- 6 When using artificial light, perform a test run to check on the light levels.
- 7 Green grass is ideal, but may not be practical. Try to limit background clutter so the focus is the horse.
- 8 A level area about 80 to 100 feet long with packed ground or sod is ideal for evaluation of movement. Distance is evaluated over at least 100 feet. When distance is not 100 feet, the same course may be traveled more than once.
- 9 During the conformation and movement portion, it may be necessary to stop and restart the recording device more than once.

DISPOSITION AND MANNERS

While there are no specific tests for Disposition and Manners, it is impossible to remove these factors from the Levels of Achievement or training.

Submissions may be by mail or electronic means.

Procedure for Electronic Submission:
