

Dear Subscribers,

It's been a lovely fall here. I hope all of you have been as lucky. Now it's time to think about weaning the foals and getting them registered. Would those of you who register your part-breds please send me the address? I've had several requests for this information.

Take care and don't forget to write.

CENTRAL ALBERTA CLINIC & SHOW

Caledonia Stables, Leduc, was a busy place Sept. 8 & 9, as Walking Horse owners and people interested in the breed gathered for an informative two days of demonstrations and a fun show.

Once again, many B.C. and Sask. folks attended, along with us "local" Albertans. There were lots of new faces - due in large part to the interest being generated in the Edmonton area by Bexsons, Hubbards' and McKinnons' Tennessee imports.

At the last minute Ray Gilmer was unable to attend so Mr. Frank White, professional trainer and accredited judge from Junction City, Oregon took over the job and proved to be a very popular choice. A valued guest was Mr. Louis Tippet, TWHBEA Director for Oregon.

On Saturday Mr. White demonstrated handling Walkers at different ages and stages of training and fielded questions from the audience. Many took the opportunity to get private lessons.

Sunday was show time. I have not yet received the list of results but here are a few line class placings I jotted down Sunday morning:
